

OxiShield™

OxiShield™ Comprehensive Antioxidant Formula

Item No. 1430600. 60 chewable tablets
Available Only Through Veterinarians
Proud Member of the NASC; NSF-Certified

Product Facts:

Active Ingredients per Tablet:

Vitamin C (Ascorbic Acid, as Ester-C®)	160 mg
Superoxide Dismutase	65 mg
Grape Seed Extract	30 mg
Co-Enzyme Q10	1.25 mg
Vitamin E	50 IU
Vitamin A (Beta Carotene)	250 IU
Vitamin A (Palmitate)	1000 IU
L-Glutamic Acid	12.5 mg
L-Cysteine	12.5 mg
L-Glycine	12.5 mg
L-Glutathione	1 mg
Selenium	0.015 mg
Zinc	3 mg
Copper	0.06 mg
Manganese	0.25 mg
Molybdenum	0.006 mg
Magnesium	9 mg

Inactive Ingredients:

Calcium Carbonate, Dextrates, Magnesium Stearate, Natural Flavorings, Silicon Dioxide, Stearic Acid.

Directions for Use:

Small Dogs or Cats	½ Tablet Daily
Mid-Size Dog (20 - 50 lbs)	1 Tablet Daily
Large Dogs (51 - 100 lbs)	2 Tablets Daily
Giant Breeds (over 100 lbs)	3 Tablets Daily

A Complete Antioxidant for Ultimate Protection

OxiShield™ is a broad-spectrum antioxidant designed to work on many levels to help support the immune system and improve circulatory functions. Antioxidants have been shown to aid in the elimination of unstable oxygen molecules known as free radicals, to assist the body in combating environmental pollutants, and to slow the chemical process of oxidation. Combinations of certain antioxidants produce better results than individual antioxidants do when taken separately. OxiShield™ has been formulated with this in mind, providing the optimal blend of eight natural antioxidants which work together for maximum efficacy.

Benefits :

Ester-C®, the main component of OxiShield™, is a potent antioxidant, but no single antioxidant protects against all conditions. OxiShield™ is a powerful broad-spectrum antioxidant in which the various antioxidant groups combine in a synergistic manner. They work as team players, providing better results than when taken individually, thereby giving maximum protection against free radical damage.

OxiShield™ contains eight major groups of natural antioxidants that in combination protect against free radical cell damage in organs and organ linings. The tablets are tasty and easy to feed. They are scored to be easily broken in half for smaller animals, and they are delicious!

OxiShield™ contains:

- **Ester C®**, vitamin A and vitamin E: the three most important vitamins that provide antioxidant support
- **Grape Seed Extract.** This bioflavonoid-rich product contains many polyphenolic compounds, which are potent antioxidants and support the auto immune system.
- **Super Oxide Dismutase (S.O.D.)** is a natural antioxidant enzyme produced by the body and contained in many herbal antioxidants. It is often used as a benchmark to determine the antioxidant potency of phytochemicals, and is considered one of the most important natural antioxidant enzymes to combat free radical damage.
- **Coenzyme Q-10** is a key factor in cellular energy creation. Without energy, cells cannot carry out the functions to stay alive. Coenzyme Q-10 support the immune system.
- **Selenium** is a structural component of the anti-oxidant enzyme glutathione peroxidase. It is one of the most important antioxidants.
- **Other antioxidant minerals (Zn, Cu, Mn, Mg, Mo)** work together in maintaining optimal health.
